Allowable Subject Matter

1. Claims 1-30 are allowable over the prior art of record.
2. The following is a statement of reasons for the indication of allowable subject matter:
Claims 1-30 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a system and method for processing image data in a digital image device and a system for processing image data in a digital camera comprising: a memory unit having a data structure as recited in claims 1, 13 and 22 including all of the other features recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably **accompany** the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. None of the references cited taught a system and method for processing image data in a digital image device or a system for processing image data in a digital camera comprising a memory unit having a data structure as recited in the claims.
